TOP LEVEL COMPUTING OFFERS COMPLETE WORKS UPGRADE

By CBR Staff Writer

Stroud, Gloucestershire-based Top Level Computing Ltd is offering MS-DOS and Windows users upgrades to its Complete Works or Fine Words packages, for UKP130 and UKP90 respectively: Complete Works combines a word processor, spreadsheet, database and charting with new form design and filling facilities; the company reckons that the deal will be popular with users of its previous Microsoft Works package and with MS-DOS, Wordstar Express, Locoscript and Supercalc users wanting an upgrade path to Windows.
